Key Learning – To predict the scene before and after the film clip.

Task – Think of a prequel and sequel for The Ocean Maker film clip.

Explanation of activity – Use the boxes above to draw a picture of your prequel and sequel ideas. What did the setting look like before the start of the film clip and what did it look like after the end of the film clip? You then need to write a short description for what each picture is representing and give a brief description about the events that occurred before the start of the film clip and after the end of the film clip.
